

# Electronic Transaction Services

Linking  
***Providers & Payers***

## Future Solutions Now!

*eHDL, an e-health leader in the business of enhancing financial opportunities for its customers by providing real-time connectivity between entities that pays for and provides health care services.*

*eHDL-customers enjoy reduced administrative costs and frustration; enhanced revenues, and predictable outcomes.*

HealthNet Data Link, Inc. (HDL), provides Electronic Transaction Services (ETS), using a single login to multiple Payers. Turnkey, HIPAA-compliant transactions such as Electronic Benefits and Eligibility Verification, Claims Submission, Claims Status and Remittance Checking, Referrals, and Authorization are available using HDL Web-Based Browser, Windows software, Green Screen Terminals, and Swipe Box interface products. The HDL Claims Clean-Up product identifies and eliminates costly claims submission errors. HDL provides HIPAA-Compliant Electronic Transaction Service Hosting and Interface solutions for Payers who desire connectivity to Providers.

*“A Leader in Local and Regional Payer Connectivity”*

*HDL provides effective outsourcing solutions for managed care or Insurance organizations that recognize the benefits of managing their Eligibility and Claims data in the most cost effective manner.*

## Experience the Difference!

From eligibility to remittance, HDL gives health care organizations a single login solution to all electronic transactions.
